

Custom Cylinder Solutions

Engineered to Customer Specifications

- Lined or unlined cylinder bodies
- Manufactured from application specific materials
- Air or water-cooled cylinder designs
- Sour Gas trim available
- Maintenance friendly piston and rod assembly designs
- Customer specified valve OEM
- Wide range of unloading options

Engineered to Minimize Installation Costs

- New cylinder designs often can maintain the same centerline dimensions as the current cylinders, allowing existing bottles to be reused and thus minimizing capital costs.

Engineered to Solve Problems

- Functionally equivalent cylinders are designed to solve operational concerns such as poor efficiency, structural weakness, leakage, corrosion, or poor maintainability.
- New cylinder bodies can often utilize existing valves, piston and rod assemblies, packing cases, etc.
