

Job Opportunity: CNC Machinist

ACI Services Inc., a growing leader in the dynamic gas compressor industry serving the natural gas, refinery, and chemical markets, seeks a team player to fill the position of CNC Machinist.

The CNC machinist will become a critical contributor to the company's strategic plan to bring manufacturing in house, contributing to a dynamic, energetic, technological, high precision manufacturing team.

The successful candidate is one who not only possesses the knowledge, skills, abilities, and other characteristics required for the job but also identifies with our values and culture.

Why ACI?

ACI is a leader in the world of compressors, with deep engineering expertise and customer focus that has made it successful since 1960. Our core values are accountability, customer focus, integrity, and professionalism. Our mission is bold: *To influence every compressor in the market!*

We care about our people. And we recently asked them, "What sets ACI apart from other companies?"

Here's what our leaders said:

- Stable company – We have been in operation for 55 years
- Provide skills for your next job – opportunity for growth
- Believe your time is valuable – family is important
- Be a team member of an industry leader
- Average tenure is 10 years – team members stay with ACI
- Ownership is involved in the company – focused on the team and the business
- Benefits package – very competitive
- Location – Small town atmosphere within driving distance of large cities

Here's what the team said:

- New challenges everyday
- Leadership is willing to adjust work schedules to accommodate life
- Company is family oriented
- Our ideas matter and are listened to
- Our work makes a difference
- Great co-workers and a great work environment; the people and culture are genuine
- Innovative products and ideas

Being part of ACI means being part of something bigger than you. It's about being part of an organization that takes pride in its excellence and innovation, competing and doing business around the globe. Everyone has the chance to make an impact.

To continue our success, we need additional top-notch team members. *Maybe that means YOU.*

Job Opportunity: CNC Machinist

The Opportunity and Who We Need

ACI has recently embarked upon an aggressive growth strategy based upon what we do best, and we will only achieve our goals with a seasoned skilled CNC Machinist.

The CNC Machinist will have the opportunity to set-up and operate a wide array of CNC style lathes and horizontal milling equipment.

The ideal candidate is an active self-starter with the ability to get the job assigned done in the short-term while having the ability to set-up, plan, and structure the next job for machining. They have a sense of urgency, works hard, motivated by goals, driven by results, not afraid to ask questions and challenge the rest of the manufacturing team to become better. The candidate is focused, punctual, and attentive to details. They have a high mechanical aptitude that they are willing to bring to a team environment sharing their knowledge by problem solving the day's challenge to meet the production schedule.

This person has to bring a positive attitude and be able to influence and sell ideas to others. He or she knows how to prioritize, yet is able to deal with a dynamic schedule without becoming frustrated.

The ideal candidate also has a rich understanding of machining and manufacturing processes and wants to share their knowledge and experience.

The ideal candidate understands our core values:

- **A**ccountability,
- **C**ustomer Focus,
- **I**ntegrity, and
- **P**rofessionalism

They understand and live these principles. This person wants to be part of a growing team and is able and willing to grow with the business.

We are beginning to review candidates immediately and will continue until we fill the position.

Job Opportunity: CNC Machinist
